The Lattimore Family: Experienced & Passionate Caregivers Ready to Welcome You Home

Glendora and Tim Lattimore live in Henrico with their teenage daughter. They are passionate about caring for others and being involved in the community. They are experienced in foster care and sponsored residential with individuals with exceptional medical and behavioral support needs. They have the patience and compassion to provide positive support to help individuals navigate their day and make choices about their wants while ensuring needs are met. Their warm and inviting home has a few steps to enter so any individuals they support will need to be able to navigate some stairs.

The Lattimores enjoy spending time together as a family traveling, camping, and watching movies and are eager to welcome someone into their home. They look forward to community outings such as the library, stores, the movies, museums, and volunteering.
